Senior Biking Program

Cycling is one of the best exercises for aging bodies, it helps you work your cardiovascular system and keeps your heart healthy. Because cycling is a low-impact sport, it reduces strain on the joints. Join us as we start this program for a weekly ride and if cyclists want more we are open to adding rides. You must have your own bike and transportation to the park. Please wear helmets for safety, carry water, and follow park etiquette. Our goal is to make your ride a little more enjoyable. Each ride will have a lead person from our collaborative sponsors that will assist should any problems or issues arise.
